PROFILE

Frontend Developer and UI/UX Designer with hands-on experience in building responsive, scalable, and user-centric web applications using HTML, CSS, JavaScript, and React. Proficient in API integration, component-based architecture, and optimising user interfaces for performance and usability. Passionate about solving real-world problems through clean design and efficient frontend solutions.

SKILLS & TECHNOLOGIES

Programming Languages

- JavaScript (ES6+) – Primary
- C – Data Structures & Algorithms
- Python – Basic

Frontend Development

- HTML5 • CSS3 • React • Tailwind CSS

UI/UX Design

- Figma • Wireframing • Prototyping
- User Flow Design

Core Concepts

- Responsive Design • REST API Integration • DOM Manipulation • Debugging • State Management • Component-Based Architecture

Tools & Platforms

- Git • GitHub • VS Code
- Notion

EDUCATION

Master of Computer Applications (MCA)
– Pursuing
LJ Institute
Bachelor of Computer Applications (BCA)
Gujarat University | 2024

CERTIFICATIONS

- UI/UX Design – Coursera
- Frontend Development – Coursera

EXPERIENCE

Computer Instructor (Full-Time)

Matrutva Vidyalaya | 2023 – 2024

- Trained 50+ students in computer fundamentals, improving digital literacy and engagement
- Strengthened communication and problem-solving skills

PROJECTS

Code Editor Web App

Technologies: HTML, CSS, JavaScript

<https://rachana0106.github.io/live-code-editor/>

- Built an in-browser code editor with real-time preview, significantly reducing manual testing and debugging effort.
- Enabled seamless execution of HTML, CSS, and JavaScript within a unified interface.
- Optimised layout for responsiveness and consistent performance across devices.

Weather Mood App

Technologies: JavaScript, API Integration

<https://github.com/Rachana0106/whether-mood-system/>

- Developed a smart mood-based web application integrating weather APIs and user input to generate personalised recommendations.
- Implemented keyword-based sentiment analysis and real-time data fetching to enhance user experience
- Integrated external platform links (Swiggy, Spotify, Maps) for seamless interaction and improved engagement
