• C – Data Structures & Algorithms
• Python – Basic

UI/UX Design

• Figma • Wireframing • Prototyping
• User Flow Design

Core Concepts

• Responsive Design • REST API
Integration • Workflow Automation
• Landing Page Optimization • Form
Handling & Data Collection

Tools & Platforms

• Git • GitHub • VS Code
• Notion

EDUCATION

Master of Computer Applications (MCA)

– Pursuing

LJ Institute

Bachelor of Computer Applications (BCA)

Gujarat University | 2024

CERTIFICATIONS

• UI/UX Design – Coursera

EXPERIENCE

Computer Instructor (Full-Time)

Matrutva Vidyalaya | 2023 – 2024

- Trained 50+ students in computer fundamentals, improving digital literacy and engagement
- Strengthened communication and problem-solving skills

PROJECTS

AI-Based Service Booking & CRM System (Bubble + Zapier)

- Built an end-to-end service booking platform with automated lead management system
- Integrated forms, CRM workflows, and automated email notifications using Zapier
- Designed admin dashboard for tracking bookings, users, and service analytics
- Reduced manual workflow effort by ~40% through automation of lead capture, follow-ups, and data handling

Service Booking Platform (WordPress)

- Developed a responsive service booking platform with structured appointment scheduling
- Customized themes and plugins to enhance UI/UX and navigation flow
- Improved user experience through optimized service categorization and booking process

E-commerce Website (No-Code)

- Built a fully functional e-commerce platform with product management system
- Integrated payment gateway (demo) and optimized checkout experience
- Focused on improving customer journey and increasing usability

Automation Workflow System (Zapier + Google Sheets)

- Automated repetitive tasks using Zapier integrations and Google Sheets
- Reduced manual effort by streamlining workflows through trigger-based automation
- Designed efficient data handling processes for improved productivity

Expense Tracker UI (Figma)

- Designed a clean and intuitive finance tracking interface
- Created wireframes and interactive prototypes to improve usability
- Applied modern UI principles for effective data visualization
